### *Analysis by the Legislative Reference Bureau*

Under current law, no school district may provide to its nonrepresented professional employes, for any 12-month period ending on June 30, an average increase for all such employes in the total cost to the school district of compensation and fringe benefits for such employes that has an average cost per employe exceeding 3.8% of the average total cost per employe of compensation and fringe benefits provided by the school district to its nonrepresented professional employes for the preceding 12-month period ending on June 30 or the average total percentage increased cost per employe of compensation and fringe benefits provided to its represented professional employes during the 12-month period ending on June 30 preceding the date that the increase becomes effective, whichever is greater.

This bill provides that the increased cost of compensation and fringe benefits for nonrepresented professional employes does not include any cost incurred due to an increase in hours for a nonrepresented professional employe who is employed less than full time on a weekly or annual basis but who subsequently becomes employed at a level that is not greater than full time on a weekly or annual basis.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.
